

## Regional Audit of Cancer Patient Information

### PATIENT FOCUS GROUP QUESTIONS

- What did you feel was good about the information received?
- What was not good?
- What improvements regarding information could be made?
- Did you have or were you offered a key worker?
- Did you know who to contact if you had a problem regarding your illness?
- Did you know your diagnosis and treatment plan was part of an MDT discussion? Do you know the names and roles of those treating you?
- Were you given written information about your diagnosis and treatment at the discussion with the doctor when you were first given your diagnosis – this should be specific to you and not only a booklet about your cancer type.
- Were you given information about treatment services in your area?
- Were you given information on psychological/financial support services?
- Were you given information about patient involvement groups e.g. NICaN Patient and Public Involvement, Macmillan Cancer Voices, Ulster Cancer Foundation patient advocacy group, trust support groups?
