

This leaflet gives information about how you can be involved with the Northern Ireland Cancer Network in shaping cancer services.

Before you read any further- what's in it for you?

You will be able to

- hear what's happening in cancer services as they happen – and sometimes before they happen
- have opportunities to shape those services
- be able to take part in training which will help you be part of the groups and projects listed inside
- claim back travel expenses - you will not be out of pocket for any involvement in the Cancer Network

Patient and Public Involvement in Cancer Services

Northern Ireland Cancer Network
